

AMENDMENTS TO THE DRAWINGS

Figure 1 has been amended by adding cross hairs to the image to define the borders and relocating the image location on the sheet to better adjust for margins. A caption was also added to the figure, labeling the drawing as "example 5x5 bingo card".

Figure 2 has been amended by adding cross hairs to the image to define the borders and relocating the image location on the sheet to better adjust for margins. No other changes were made to the drawing.

Figure 3 has been amended by adding cross hairs to the image to define the borders and relocating the image location on the sheet to better adjust for margins. The figure number was correctly renumbered as "Figure 3" as the original submission had the drawing incorrectly labeled as "Figure 4", leading to confusion when the figure was mentioned in the specification. A caption was also added, labeling the drawing as "pre-assigned bonus multipliers".

Figure 4 has been amended by adding cross hairs to the image to define the borders and relocating the image location on the sheet to better adjust for margins. The figure number was correctly renumbered as "Figure 4" as the original submission had the drawing incorrectly labeled as "Figure 3", leading to confusion when the figure was mentioned in the specification. A caption was also added, labeling the drawing as "example ball draw".

Figure 5 has been amended by adding cross hairs to the image to define the borders and relocating the image location on the sheet to better adjust for margins. The figure number was correctly renumbered as "Figure 5" as the original submission had the drawing incorrectly labeled as "Figure 6", leading to confusion when the figure was mentioned in the specification. A caption was also added, labeling the drawing as "example paytable".

Figure 6 has been amended by adding cross hairs to the image to define the borders and relocating the image location on the sheet to better adjust for margins. The figure number was

correctly renumbered as "Figure 6" as the original submission had the drawing incorrectly labeled as "Figure 5", leading to confusion when the figure was mentioned in the specification. A caption was also added, labeling the drawing as "example game results".

Replacement Sheets for all six drawings have been attached to this document as well as marked up, annotated versions as requested by the reviewer.
